DETAILED ACTION

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1, 2, 7, 8 and 9 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding claim 1, "operate" in line 14 should be changed to a phrase similar to --attract the work-- in view of the function for attracting set forth in line 3, to provide claim accuracy.

Regarding claim 7, "pressing" in line 6 should be changed to --pushing-- to provide accuracy.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 3, 7 and 10 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Suzuki, et al.

Regarding claim 3, the phrase "in a transportation direction at a transportation speed" does not preclude the tape in Suzuki.

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 4 and 8 are rejected under 35 U.S.C. 103(a) as being unpatentable over Suzuki, et al. in view of McIlwraith, et al.

It would have been obvious to substitute a Bernouli pickup for the pickup in Suzuki to prevent damage to the article being picked up.

Claims 5 and 6 are allowed.

Applicants' arguments have been carefully considered but are not deemed persuasive regarding claims 3, 4, 7, 8 and 10 since these claims do not set forth moving the pickup along a transportation direction of said work as do claims 1 and 5. claims 3, 4, 7, 8 and 10 do not define over the tape fed=ed in Suzuki, et al.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
